

2026 / BROKER LAUNCH PROPOSAL

MT5 BROKERAGE TURNKEY SETUP

From company formation
to go-live and client acquisition.

A decision-ready commercial booklet covering MetaTrader 5 licence editions, company and compliance preparation, Forex CRM, dealing/liquidity, hosting, implementation and ongoing operating costs.

SETUP SERVICES

\$15,000

One-time preparation

MT5 ENTRY REFERENCE

\$10,000

Monthly equivalent

IMPLEMENTATION TARGET

30-40

Working days (conditional)

PREPARED BY MT5 BROKER SETUP

www.mt5brokerssetup.com

01 / PROPOSAL OVERVIEW

One partner. Seven delivery stages.

From incorporation and valid company evidence to technology, operational acceptance and a client-ready brokerage.

PREPARATION

\$15,000

One-time company + application support

MT5 ENTRY

\$10,000

2026 reported monthly licence reference

DEPLOYMENT

30-40 days

Working-day planning target, not guaranteed

WHAT THIS BOOKLET COVERS

01**Company & compliance**

Incorporation, authentic address, legal opinion, incumbency, application evidence

02**MT5 licence editions**

Entry / Standard / Enterprise, real-account capacities and 2026 reference rates

03**Trading infrastructure**

Main + backup servers, MT5 readiness, resilience and operations

04**Forex CRM**

Trader Room, Back Office, IB Room and commercial tiers

05**Market access**

A-Book bridge/LP versus B-Book market feeds and fees

06**Implementation and budget**

Seven-stage timeline, itemised setup and recurring cost analysis

Business formation, platform licences, financial regulation and payments approval are separate legal/contractual scopes. No MetaQuotes or regulator approval is guaranteed.

02 / MT5 PLATFORM LICENSING

MetaTrader 5 licence editions

MetaQuotes publishes Entry, Standard and Enterprise default account capacities; the USD figures below are 2026 industry-reported monthly references.

ENTRY / BASIC

\$10,000

REAL ACCOUNTS

1,000

For a new broker

Reported per month

STANDARD / ADVANCED

\$15,000

REAL ACCOUNTS

25,000

For growth-stage brokers

Reported per month

ENTERPRISE

Request quote

REAL ACCOUNTS

200,000

High-scale dedicated scope

Vendor quote required

LICENCE VERSUS SERVICES

BUYING COMPONENT

CONTRACT / VERIFICATION

MetaTrader 5 licence

Supplier approval, named licence holder, account edition, current invoice

Our company/compliance package

\$15,000 separate service; not an MT5 licence charge

CRM, liquidity and hosting

Independent software/vendor agreements and acceptance

Regulatory/financial permissions

Jurisdiction-specific authorisations and bank / PSP onboarding

SOURCE & BILLING NOTE

Entry / Standard / Enterprise default account capacities appear on MetaQuotes public broker page. A separate 2026 industry supplier reports \$10,000 / \$15,000 as MetaQuotes rates; MetaQuotes does not list public USD amounts. The supplier also mentions quarterly upfront Entry billing. A dated signed licence quote governs.

03 / COMPANY + COMPLIANCE PACKAGE

One-time service scope / \$15,000

Documented, genuine incorporation and MetaQuotes application preparation. Nine workstreams, with clear issuer responsibilities and deliverables.

01

Company incorporation

Select the legal entity and incorporation jurisdiction; support registered formation and beneficial-owner declarations.

Handover: Registration certificate, entity records and ownership evidence

02

Real address documentation

Arrange authentic physical or registered address evidence where lawful; document privacy, usage rights and any required renewal.

Handover: Address agreement and acceptable proof of address

03

Incumbency & corporate governance

Prepare director/shareholder particulars, signatory authorities, constitutive records and incumbency where available.

Handover: Officer registers, shareholder data and incumbency certificate

04

Legal opinion & jurisdiction

Coordinate a qualified legal opinion on the entity and intended financial product / business activities in the agreed country.

Handover: Legal opinion with scope, assumptions and issuer details

05

Website + business plan

Prepare the broker story: business model, focused geographies, target client types, instruments, disclosures and operations.

Handover: Website-readiness record, business plan and geographic matrix

03 / COMPANY + COMPLIANCE PACKAGE

Preparation, clearance and handover

A full application support workflow - without making MetaQuotes, bank or legal permissions appear automatic.

06

MetaQuotes application dossier

Organise real corporate, officer, address, bank, legal and operating records and manage responses to supplier compliance queries.

Deliverable: Application checklist, evidence tracker and correspondence

07

MT5 technical readiness

Prepare MT5 main/backup server architecture, groups and symbols, integration design, liquidity feed and UAT acceptance conditions.

Deliverable: Infrastructure plan, configuration and signed testing checklist

08

Bank reference & funding evidence

Prepare bank reference request and source-of-funds documentation. Bank account and reference issuance remain decisions of the bank.

Deliverable: Bank request package and bank-issued materials if approved

09

Final due diligence & go-live

Track application responses, platform rights, operator readiness, CRM, client documents and technical/finance reconciliation.

Deliverable: Open-item register, accepted test evidence and operations handover

SERVICE SCOPE

Company/ownership preparation; authentic documents; legal-opinion and incumbency coordination; MT5 application and technical setup preparation - as itemised in the written order.

EXTERNAL DEPENDENCIES

No automatic bank reference, MetaQuotes clearance, regulatory authorisation, client-money permission, liquidity collateral, PSP approval, taxes or unquoted regulator/vendor fees.

04 / IMPLEMENTATION ROADMAP

Seven stages to broker go-live

Target 30-40 working days for a well-prepared case. Incorporation may target 10-15 working days; external approvals can extend the schedule.

01

Company incorporation

10-15 working days targeted

Choose jurisdiction; register eligible entity and owners.

02

Physical address & bank proof

Issuer-dependent

Gather genuine address documentation and bank reference requirements.

03

Website and business plan

Parallel preparation

Complete terms, target geographies and broker operating model.

04

MetaQuotes application & review

Supplier-dependent

Submit compliance evidence, respond and confirm licensed rights.

05

MT5 servers, feed and liquidity

After licences/permissions

Configure MT5, backup, A-Book/LP or B-Book market data.

06

Forex CRM and full test run

Acceptance-dependent

Reconcile KYC, trading accounts, payments, IB and transactions.

07

Go-live and client acquisition

Only after sign-off

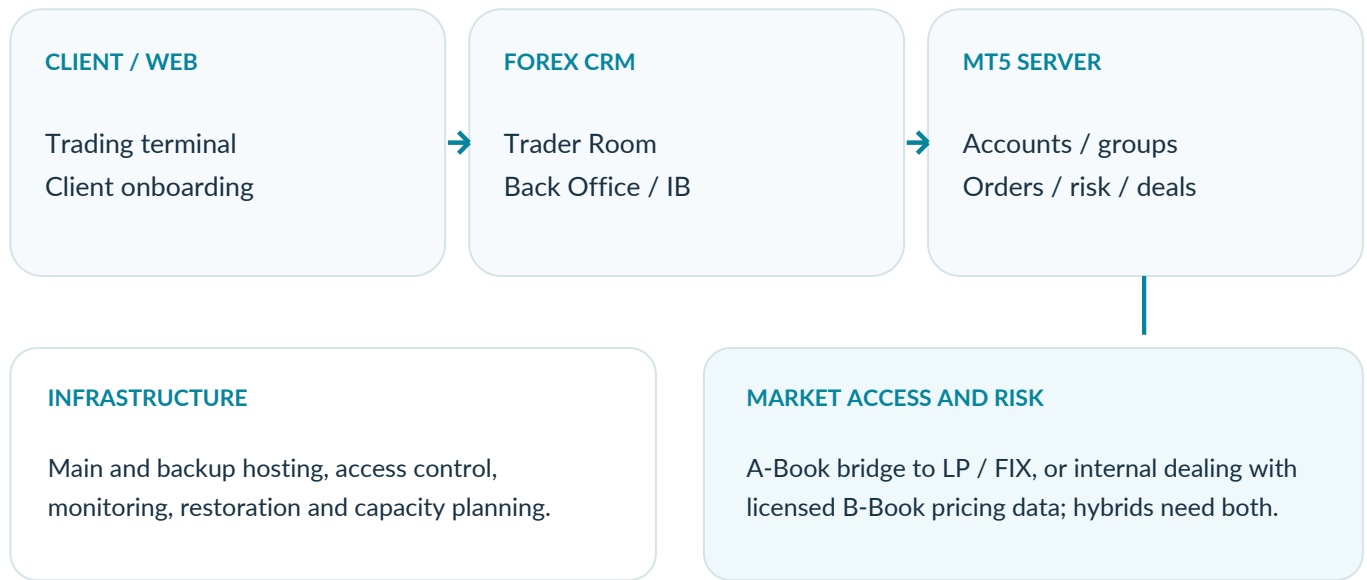

Operator handover, compliance and launch readiness review.

Timelines depend on formation, documentary readiness, bank/LP/PSP onboarding and MetaQuotes review - not guaranteed deadlines.

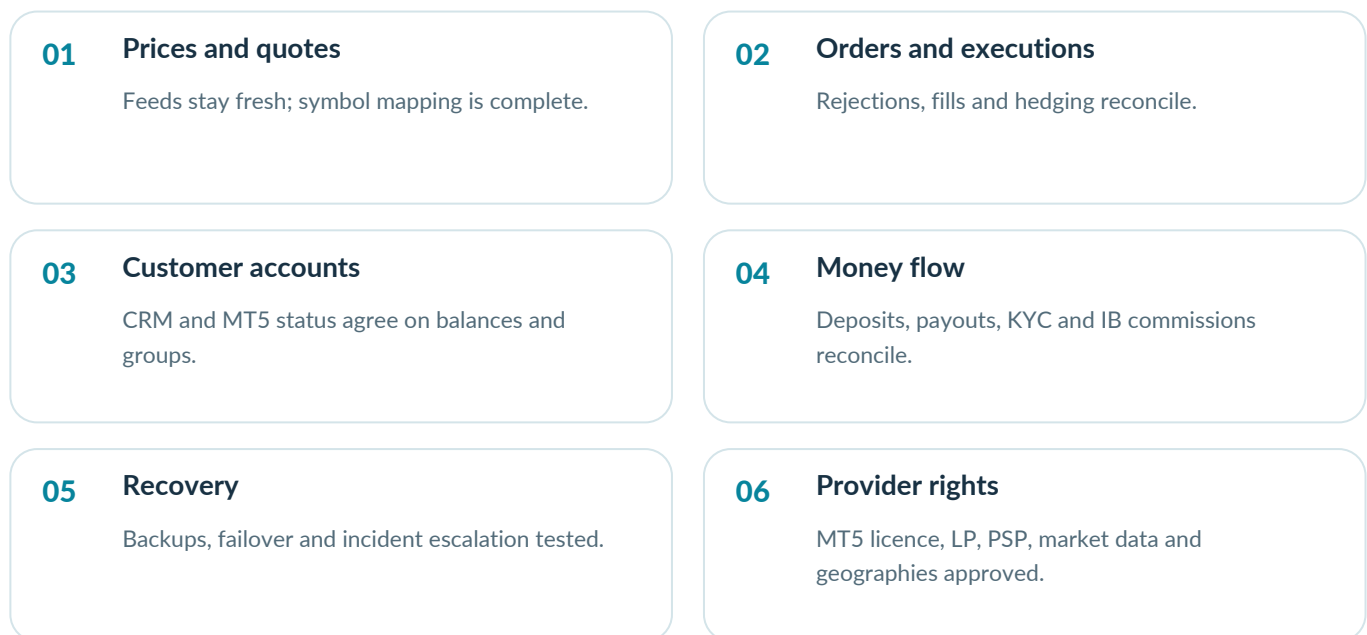

05 / TECHNOLOGY STACK

The complete MT5 broker ecosystem

A production brokerage needs more than a terminal: trading, client operations, liquidity, finance and recovery must reconcile.

END-TO-END OPERATIONAL ACCEPTANCE

06 / FOREX CRM

Trader Room, Back Office and IB Room

Select one CRM licence tier. The software is separate from MT5 platform rights, dealing feeds, hosting and external PSP/KYC charges.

FOREX CRM LITE	FOREX CRM PRO	FOREX CRM ULTRA
\$400 / MONTH	\$499 / MONTH	\$0 SOFTWARE / MONTH
\$1,500 SETUP	\$3,500 SETUP	\$15,000 SETUP
Entry broker CRM	Managed growth tier	One-time software offer

WHAT THE FOREX CRM CONNECTS

MODULE	EXPECTED DELIVERY / ACCEPTANCE
Trader Room	Portal onboarding, KYC statuses, trading accounts, deposits and withdrawal requests.
Back Office	Operations dashboard, group controls, permissioned finance and customer activity.
IB Room	Partner hierarchy, referrals, rebate and commission reconciliation.
MT5 Integration	Approved manager/API access, account creation, trade history and daily reconciliation.
PSP / KYC Connections	Provider integration scope, payment settlement and third-party costs to verify.
Data ownership / support	Contractual export rights, onboarding, SLA, and termination assistance.

Pricing shown is our Forex CRM commercial offer. ULTRA \$0 refers to monthly software licence only; hosting, support, source-code rights and other provider charges must be documented.

07 / EXECUTION & DATA

A-Book or B-Book? Choose deliberately.

Connectivity and dealing design change technology costs, risk ownership, market-data rights and the regulatory operating model.

A-BOOK / EXTERNAL LIQUIDITY

\$2,500

FROM / MONTH

External LP / broker bridge connectivity. Budget extra LP connections, authorisations, hedging rules, collateral and executions.

+\$2-\$5 / USD million traded

B-BOOK / INTERNAL DEALING

\$2,000

BASIC FEED / MONTH

Forex, energies, metals, US indices and crypto. Requires valid market-data entitlements and transparent client risk/execution policies.

Advanced: \$3,000 / month

COMPARISON & MARKET DATA SCOPE

DECISION	A-BOOK	B-BOOK
Liquidity model	A-Book: route/hedge with LP	B-Book: internalise under dealer risk
Core commercial	Bridge from \$2,500/mo	Basic \$2,000/mo Advanced \$3,000/mo
Volume fee	\$2-\$5 per USD million traded	Depends on separate data / risk contracts
Basic feed coverage	LP-defined instruments	FX, energies, metals, US indices, crypto
Advanced feed coverage	LP-defined instruments	FX, energies, metals, US stocks, UK indices, crypto
Custom instruments	Provider approval and connection quote	Custom data-feed contract / quote

Hybrid execution includes both bridge and feed budgets. Liquidity, quote rights and broker capital are never presumed bundled.

08 / INFRASTRUCTURE

Hosting, resilience and billing

Main + backup deployment is a baseline architecture. Hosting rights, geographic latency and real load determine final server specifications.

HOSTING FROM

\$400

Per MT5-friendly server, monthly

MAIN + BACKUP

\$800

Two servers combined, from / month

SCALING

Variable

CPU, RAM, redundancy and data volumes

HOSTING AND DISASTER RECOVERY

01

Main trading server

Provision MT5 system services, licence access, security baseline, symbol and group configuration.

02

Backup / recovery server

Document replication, backups, restore rehearsal and relevant failover behaviour.

03

Monitoring & controls

Track reachability, stale quotes, resource pressure, certificate renewal and privileged user access.

04

Capacity engineering

Review account load, quote throughput, storage growth, burst order traffic and location requirements.

BILLING / SERVICE CONTINUITY

Treat MT5 monthly figures as budget equivalents. Some published Entry terms require a quarterly upfront commitment. Licence distribution, start date, payment deadlines, renewals and suspension remedies are governed by the actual supplier agreement. Overdue payments may disrupt trading operations.

09 / ITEMISED COMMERCIAL OFFER

Setup and recurring price tables

Quote the full stack - do not mistake the institutional MT5 licence for company formation, CRM, bridge, feed, regulatory capital or hosting.

A. ONE-TIME / UPFRONT

CHARGE	WHEN APPLICABLE	AMOUNT
Company + application preparation	One-time implementation service	\$15,000
Forex CRM Lite / PRO / ULTRA setup	Choose only one: \$1,500 / \$3,500 / \$15,000	Variable
External issuer / regulator / bank	Jurisdiction, bank and written supplier terms	Verify

B. RECURRING / VARIABLE

COMPONENT	DETAIL	MONTHLY EQUIV.
MT5 Entry / Basic	1,000 account reference	\$10,000
MT5 Standard / Advanced	25,000 account reference	\$15,000
MT5 Enterprise	200,000 account reference	Quote
Forex CRM Lite	\$1,500 one-time setup	\$400
Forex CRM PRO	\$3,500 one-time setup	\$499
Forex CRM ULTRA	\$15,000 setup software only	\$0
A-Book bridge	LP connections separate	From \$2,500
A-Book volume	Per \$1m monthly executed turnover	\$2-\$5
B-Book Basic feed	FX, energy, metals, US index, crypto	\$2,000
B-Book Advanced feed	Adds US stocks and UK indices	\$3,000
Dual hosting	Two servers, from \$400 each	\$800

Select only one MT5 tier, one CRM tier and the relevant A-Book/B-Book/hybrid branch. Third-party bank, LP, PSP, taxes, capital, custom licensing and paid market-data rights are separate.

10 / BUDGET PLANNING

Example launch budgets

Illustrative monthly-equivalent scenarios, not an invoice, regulatory-capital estimate or binding supplier quotation.

STARTER A-BOOK

MT5 Entry + CRM Lite + bridge + two servers

UPFRONT

\$16,500

MONTHLY

\$13,800 - \$13,950

FIRST 12 MONTHS

\$182,100 - \$183,900

A-Book volume illustration: \$50m/month x \$2-\$5 per \$1m traded.

STARTER B-BOOK

MT5 Entry + CRM Lite + Basic data + two servers

UPFRONT

\$16,500

MONTHLY

\$13,200

FIRST 12 MONTHS

\$174,900

HYBRID WITH CRM PRO

MT5 Entry + CRM PRO + bridge + Basic feed + two servers

UPFRONT

\$18,500

MONTHLY

\$15,899 - \$16,049

FIRST 12 MONTHS

\$209,288 - \$211,088

Illustration also assumes \$50m/month in A-Book executed volume.

WHAT IS NOT IN THESE ESTIMATES

Regulator-authorized capital, actual MetaQuotes contract/invoice timing, banking/PSP onboarding, liquidity collateral, KYC fees, customer money, taxes, legal disbursements, insurance, customer acquisition and staffing.

11 / FAQ & BUYER CHECKLIST

Questions to resolve before signing

A credible project scope separates software implementation from vendor rights, regulated financial activities and operational proof.

01 Is MetaQuotes approval included in \$15,000?

Application/document preparation is included under scope. MetaQuotes alone may accept/reject its application and contractual rights.

02 Is 30-40 working days guaranteed?

No. Formation, banking, due diligence, licences, LP/PSP approval and UAT can change the launch date.

03 Are the MT5 prices official?

Licence account capacities are on MetaQuotes pages. A 2026 industry supplier reports the USD reference rates; ask for an actual MetaQuotes/authorized licence offer.

04 Is the Forex CRM already part of MT5?

No. Trader Room, Back Office, IB Room and CRM integrations are independently priced and scoped.

05 What is the minimum live server footprint?

Normally main + backup, budgeting from \$400/server/month; load tests can require higher specifications.

06 Is a B-Book feed the same as liquidity?

No. A B-Book market-data subscription differs from hedged external LP execution; source rights and conflicts of interest must be assessed.

07 Is our setup automatically a licensed CFD broker?

No. The relevant jurisdictions, products, leverage and financial permissions must be assessed and authorized separately.

08 Can we start offering the service before approvals?

Real trading/client solicitation must not be assumed authorized; confirm legal permission, partner contracts and client money controls.

[NEXT STEP / REQUEST YOUR SCOPE](#)

Ready to build your own MT5 brokerage?

Request an itemised proposal for your jurisdiction, MetaQuotes licence edition, company/compliance work, Forex CRM, dealing model, two-server hosting, financial integrations and go-live acceptance.

REQUEST YOUR DETAILED QUOTE

Share these five inputs for a clear commercial response:

- Preferred jurisdiction and customer geography
- MT5 Entry / Standard / Enterprise capacity
- A-Book, B-Book or hybrid trading model
- Forex CRM and two-server infrastructure scope
- Target launch date and projected client volume
